VULCAN LOCALS.

Geo. Buck was a Calgary visitor on Wednesday and Thursday.

Mrs. W. E. Buchart is expected to leave England for home about Nov. 15th.

The rate-payers of Hanna, on Oct. 22nd, will vote on whether the town will have a Municipal Rink.

BORN—To Mr. and Mrs. Ernest Beeston, of Vulcan, on October 19th, a daughter.

Our stock of Stanfield's Underwear is selling fast. Call and get yours before it is too late. A. G. Spooner's.

E. K. Picken, who has been at the Bank of Commerce for the past several weeks returned to Calgary last week.

Mr. A. H. Allen of Edmonton is in Vulcan on one of his regular trips as accountant on the books of the M.D. of Marquis and the M.D. of Royal.

Mrs. S. P. McMordie, who has been visiting Mr. and Mrs. A. T. Martin, returned to her home at Prince Rupert, B. C.

U. S. Attorney-General Palmer can see the dawn of lower prices and the rest of us would like to see his oculist.

Mr. Butchart has received word that Mrs. Butchart and Willie have booked their return passage on the Orduna, which is to sail the 15th of November.

Rev. D. W. Dalgleish, of Calgary, will preach Anniversary services at the Methodist Church on Sunday, Oct. 26th, morning and evening.

Mr. R. C. Love, of Red Cross, who has been seriously ill in the Jean Morton Hospital, for some time is still in a critical condition.

Miss Long, of Calgary, who has been spending a few days with her brother, of the Canadian Bank of Commerce staff, has returned home.

Mr. and Mrs. W. D. McKenzie, of Calgary, visited Mr. and Mrs. Stack on Sunday. Mrs. McKenzie, who is Mr. Stack's sister will remain for a few days.

Capt. and Mrs. E. F. Graves, who have been visiting their daughter, Mrs. W. D. Allan, left on Wednesday evening to return to their home in Nova Scotia.

Mrs. Arthur Mitchell, who has been in Orilla, Ont., for the past several months, was a business visitor to Vulcan on Wednesday and Thursday. She was accompanied by her brother, L. D. Jackson, of Munson.

The new theatre management are introducing a series of Sunday night concerts, which, if found to be popular with the people, will be continued throughout the winter. No admission is charged, but a collection is taken. Go there on Sunday evenings.

Why not apply for that loan now, while the funds are available? We are agents for the best companies. Prompt action and low cost of administration guaranteed. Hagerman & Company.

W. E. Buchart last week obtained a conviction against one of our townsmen for the nonconformity of the Provincial Fire Prevention Act, the regulations of which are required to be strictly adhered to. Read carefully the notice regarding this in this issue.

John F. Miller, Alberta's Eye-Sight Specialist of Calgary, 404 Underwood Block, will be at the Imperial Hotel, Vulcan on Saturday, October 25.

In Champion at Savoy Hotel on Friday, October 24.

Window breaking seems to be a favorite pastime in Vulcan of late. Several large plates have been demolished and the last one was the front plate of the Motor Inn Garage. Mr. Jennetjohn's small son tried to drive his Ford through it, evidently taking it for a door. Needless to say the Ford came through without injury, but the window—nothing left.

The Diefenbaker auction sale, held last Wednesday, the 14th, was well attended and everything was disposed of at very satisfactory prices. Big cows brought from \$90 to \$100 and horses up to \$142.50. All the implements and household goods were readily taken up, except the organ, which Mr. Diefenbaker bid in himself. He expressed himself as more than pleased with the outcome of the sale.

Lake McGregor

To Be a Popular Place for Resort Some Day

Lake McGregor promises to be some summer resort before many years, if the plans of its improvements of which we hear are fulfilled and it behooves our capitalists of this neighborhood to get in on a little site there for future summer resort purposes. Our esteemed fellow citizen and Secretary of the M. D. of Marquis, Mr. R. E. House, has lately purchased a hundred acres adjoining the lake, to be used for farming and other purposes, principally other, where he intends to immediately put up a comfortable shack, build a motor boat, and spend at least some of his Sundays and holidays in quiet leisure and enjoyment. Many of his friends are looking forward to his invitation to join him in an outing of a day or so, which is his intention as he is not fond of solitude, and has stated that he will keep "open house" at the lake during the summer. R. E. has faith in the Lake McGregor country as a business proposition and believes land thereabouts will show good return on investment before many years.

Court Clippings

HAD MORE DOUGH THAN DISCRETION

Jim Brewer, alias John Dough, was arrested by the Provincial police at Vulcan, on the 16th inst. and charged under the Liquor Act with being intoxicated on a public street. Accused appeared before Mr. A. A. Lindsay, J.P. on the 16th inst. and pleaded guilty to the charge, stating that he obtained the liquor from Lethbridge on a prescription issued by a doctor. Ordered to pay a fine and costs.

T. N. McKie appeared before Mr. J. A. Lindsay, J.P. at Vulcan, charged upon information laid by Mr. W. E. Butchart under the Statutes of the Province with neglecting and refusing to comply with an order made by the Fire Inspector to remedy a defective chimney in his house on Minerva Street. Accused pleaded guilty to the charge and was fined \$5.00 and costs and ordered to make the necessary repair immediately. He was also warned by the magistrate that he would be liable to a penalty of \$25.00 per day for every day of default.

E. Lilly appeared before Mr. J. A. Lindsay, J.P. at Vulcan on the 17th inst. charged by H. Adams with damaging a fence. Found guilty and ordered to pay \$10.00 damages and the costs.

October 14th, Jacob Klien appeared before H. Cooper and J. Archibald, J. P.'s at Champion, charged by Joseph Kesil with theft of a churn and other articles from the farm of complainant. Defendant was found guilty and ordered to pay a fine and the costs.

VULCAN LOCALS.

Miss Caissie and Miss Martin spent the week end in Calgary.

Do you know that Daines, the "Shoe Hospital" man, is carrying a stock of Overshoes and heavy leather Boots? Better see him and learn his prices before buying. All sizes.

Five new telephone lines are being constructed to the southwest of Vulcan, all of which are leading to the village. The different routes are not as yet learned and more information is forthcoming later.

Mr. and Mrs. R. E. Dodds and child failed to reach the S.S. Saxonia at London, as anticipated, on account of the R.R. strike then pending. They are, however, leaving on the Mauritania for home on October 15th.

Do you need money to finance next year's crop, or for present needs? We are placing a large number of loans of large and small amounts. For prompt action, see Hagerman & Co. We look after your interests.

The revised figures in the Ontario elections give the Farmers 45 seats, the Liberals 28, the Conservatives 25, Labor 11, Independent and Soldiers each one seat.

Farmers Win

Old Party Swept From Power By Ontario Elections

The result of the Ontario elections shows a decided victory for the new U. F. A. Political Association, in their first recognized entrance into the political arena for government control. They won 43 seats in the election, the greatest number won by any of the different political parties contesting and the Hearst government was completely wiped from power. The Liberals won 28, the Conservatives 27, the Labor 11, and the Soldiers and Independents each one. This will not give the Farmers a majority with powers sufficient to form a new government but it is expected that enough seats will join the new party to accomplish the purpose, and it is already suggested that there will be a coalition of the Farmers, Liberal and Labor parties to meet the desires. The Cabinet Ministers defeated were Hon. Sir William Hearst, premier, Sault Ste. Marie; Hon. I. B. Lucas, attorney-general, Center Grey; Hon. T. W. McGarry, provincial treasurer, South Renfrew; Hon. Finlay McDairmaid, minister of public works, Elgin East, and Hon. W. D. McPherson, provincial secretary. The result of the election is a complete refutation of the present regime and displays the power behind the new organization, which in a really embryo state, has accomplished the almost unexpected in the political stronghold of the old parties, and further anticipates their possibilities when the organization is more fully and completely organized and equipped. What has been thus accomplished in Ontario should be still more completely verified in the western provinces, where the farmer element is in still greater proportion and which it accomplished will decisively determine "who's who" in the politics of the Dominion.

"Mac's Boat"

J. D. McIntyre Is Building Pleasure Craft For Lake McGregor

Not all of our citizens are as energetic as our mutual friend J. D. McIntyre, whom we have heard always was some sailor and fond of the water (for certain purposes only), and who has begun the construction, in his place, of a pleasure sail boat, during the hours of leisure, and while some of his other friends are sleeping and to satisfy his hobby of sailing peacefully over the waters of Lake McGregor and forgetting his cares, when the next summer rolls around. "Mac" is very much wrapped up in his boat so far, and its construction is following a sample model, and while he is not looking for speed, is making it strong enough to withstand the elements of the lake and comfortable enough to accommodate a number of his friends, who are willing to risk their lives in his hands. The boat will be equipped with all modern life-saving apparatus, including bathing suit, and "safety first" devices and some exciting times are promised those lucky enough to be invited for a ride next summer. The fixtures are all coming from that sea-faring country of Nova Scotia, as "Mac" wants only the best on his boat and time and expense will cut no figure in the completion of this craft. We hope he will not pass us by when the time comes for a sail and the water is warm, as if there is anything we like, it's a quiet and peaceful sail on nice warm and shallow water—with "Mac."

ANOTHER PIONEER GONE

By the death of Mr. Andrew Jacobson at his home to the north of Vulcan on Wednesday night, Oct. 22, at the age of 86 years, one of the old residents of this section has passed away. He had been suffering from Bronchitis which finally resulted in Bronchial Pneumonia which ended his life. He came here, with his family in the early days from North Dakota and settled in the district in the spring of 1909. He had been ailing for some time and only occasionally came to the Village when personal business demanded it. He was a pensioner of the U. S. Civil War of which there are now few surviving. He leaves five sons and one daughter to mourn his loss as follows: Jacob, Olie, Carl, John and Isaac and Mary, now Mrs. J. M. Wood. All of these are farmers in the district here and are working their own farms. The funeral will take place from the Church here in Vulcan at 2 o'clock on Saturday afternoon next and burial will be made in the Vulcan Cemetery. The Rev. Mr. Mann of Ensign will officiate.

Water Works

Petition Signed By Rate-payers

Petition Prepared and Signed
The following petition has been drafted for presentation to the Board of Public Utilities of Alberta and has been signed by more than the majority of the ratepayers of Vulcan, who have thereby signified their desire to have the proposed Water Works System installed in the business district of Vulcan as a preventative means and protection against fire. The same will soon be forwarded to the Board or taken there in person by a committee of the village to have the same favorable acted upon, when the contract for the work can be asked for and let and the work pushed to completion:

TO THE BOARD OF PUBLIC UTILITIES OF THE PROVINCE OF ALBERTA

"The petition of the undersigned sheweth:

(1). That your petitioners are desirous that you should authorize the council of the village to incur a debt on behalf of the village to an amount not exceeding \$9,000, for the purpose of installing a system of fire protection for the village as follows:

(2). The installation of a cistern in the alley on Block 7 of 20,000 gals. capacity; estimated cost being \$900.

(b). The cistern to be connected to the tank, the rear end of the light plant and to a duplex pump of 300 gals. per minute discharge and 125 pressure at pump.

(c). The installation of mains of 6 inches and 4 inches diameter with hydrants as shown on the accompanying plan. The estimated cost of pump, mains and hydrants being \$7,100.

(d). The purchase of 800 feet of standard 2 1/2 inch fire hose and two reels, the estimated cost of which is \$1,000 and the contracting with the Vulcan Electric Light Co. to install the pump in the boiler room and to keep at all hours sufficient steam to properly operate the pump, for a consideration of \$300 per year.

In accordance with a resolution of the council passed on the 22nd day of September, 1919.

"(2). That your petitioners constitute a majority of the electors of the village who are at the date of the petition resident within the village or within two miles of the boundaries thereof."

Ontario Remains Dry

Referendum Defeated on All Four Points

The vote on the referendum, while as yet very incomplete, indicates that Ontario will remain dry by a substantial majority. As anticipated, the vote in the cities went about fifty-fifty, while the rural districts were making up the difference and voting for the dry measure. The four questions submitted to the people were as follows:

1. Asking for an appeal of the Ontario Temperance Act.

2. Requesting the sale of a higher percentage of beer through government agencies.

3. Recommending local option for the sale of beer in standard hotels.

4. Recommending the sale of spirituous and malt liquors through government agencies, and at the present writing it is pretty safe to state that all four of the measures were defeated, but 2 and 4 were somewhat indefinite, as the vote of the cities showed a win, but the rural districts are supposed to much overbalance the vote in the cities and defeat the measures. The women of Ontario went almost solidly for the dry measure.

Vulcan Locals

Vulcan and the district is at present enjoying (?) another snowfall accompanied with a small winter and lowering temperatures, which makes us all realize that there is likely to be something continually in this line for the next few months to come. It behooves us all to appreciate the conditions and anticipate them by preparation of all kinds of both clothing and food. Don't forget to get in your coal. Indications are that there will be a shortage if a severe winter is experienced.

THE PRINCE'S PURCHASE

The purchase of a small ranch of 1600 acres in the Province of Alberta by H. R. H. the Prince of Wales, while in this locality has a peculiar significance and influence upon the people of the Province generally, and upon the people of the High River district, wherein the ranch is located, particularly, and many optimistic as well as pessimistic opinions are heard regarding the purchase.

There can be but one conclusion, however, for the transfer, and that is, the Prince was particularly interested and much enamored with the country wherein he made his purchase and where, he states, he hopes and intends to spend part of his life. Direct information tells us that he was quite infatuated with the life spent for twenty-four hours at the Bar U Ranch, which, together with the beautiful scenery thereabouts, created within him a desire to become directly interested in its attractions, and the result was the purchase of the Beddingford ranch. Whether or no, the Prince may be able to spend any part of his time on his new holdings here it is noteworthy that the incident is and will remain to be a big boom for this particular district, in which he has so singularly and permanently affixed his identity. The world and its peoples will immediately be informed, through the press, of his purchase in Alberta, and their attention will thus be drawn to our locality, with the suggestion that it must be an ideal spot for the purposes intended by the purchase. High River is sharing in the publicity extended, and the citizens of the town are generally elated over their good fortune and the future local possibilities which may be the result of the Prince's purchase. Be this as it may, the fact is paramount that Alberta is more distinctly on the map by the Prince's late acquisition. We believe that his actions were inspired by a true and sincere desire to become possessed of a land and interests in this particular district, because of his love for the life it unfolds, and the possibilities it offers to engage scientifically in the breeding of pure bred stock, of the kind in which he is interested. It was evident to all who became at all intimately acquainted with the Prince when here, that he was a real 'human being after all', and enjoyed more than all other necessary formal functions, a freedom of action and relaxation of official cares, becoming to others of a lesser rank. We trust he will find in Alberta, and in the purchase of his new ranch, all the hopes and ambitions he has centered therein, and will find time to spend with us many months of each year, in a life on the ranch which has been so fascinating as well as profitable to many of our best citizens.

OWING OURSELVES

It is estimated by Sir George Paish the eminent economist, that interest-bearing foreign securities held by Great Britain make a total of \$5,000,000,000. The British securities held abroad do not exceed £1,500,000,000. There is a favorable balance, after allowing for all doubtful and Russian debts, of about \$3,000,000,000. At an average rate of only 4 per cent, this means an annual income to Great Britain from this source alone of £120,000,000. No one can calculate the full effect of such a circulating asset to the people and the Government of Great Britain.

Up to this year the Government of Canada had sold Victory Bonds amounting to more than \$1,200,000,000 to the Canadian people. The Loan now being floated will add materially to the total. If \$1,700,000,000 be considered as the final outstanding war securities, at 5 1/2 per cent. interest, the total payment to Canadian Bondholders will reach \$93,000,000 a year.

Consider the business advantage which must come from such a circulating and recurring asset. The business created by such a free movement of money will make up many times for the excess taxation required to meet the interest payments. To that extent, at least a "thundering big" public debt has advantages, when it is

NARROW PREJUDICE

What is calculated to put politics on a higher plane in this country is welcome, and we are sorry to see the United Farmers of Ontario, in various constituencies, making appeals on behalf of their candidates, to narrow prejudices, to the same extent as was ever the case with 'Grit' or 'Tory.' Here is what the Farmers' Sun says in a recent issue on a "Reverend Hearst Candidate" in South Wellington, which will never lead to better days in matters of Government.

"It might be thought that an Anglican clergyman introduced into the political world by the Roman Catholic provincial treasurer to support the Methodist premier, would be almost too saintly to descend to everyday life. ... With an Anglican canon as Minister of Education, and a good bunch of Reverend members on the back benches behind him, the province should soon have walls of jasper and gates of pearl, and every M. P. P. be furnished with a golden harp with a thousand strings."

EDITORIAL COMMENTS

We came across an instance recently in town which emphasizes the necessity of an organization here such as the Child Welfare League. The mother in question has been unfortunate, her husband going overseas at the beginning of the war, leaving her with two children to protect. Then followed domestic trouble with the result that they are separated. Recently one of the children suffered an injury by being run over by a vehicle, and the mother is unable to provide medical aid and the necessary care for the child. Here is a case that the government should interest itself in, and at once. Two good sturdy Canadians are in the making and assistance given now may mean the difference between a physically fit and misfit child.

A provincial election is being held in the Cochrane riding, the date of election being set for November 3rd. The U.F.A. will contest the riding against the liberals.

From the reports coming from Manitoba it would appear that the Manitoba Narcotics Act is powerless in preventing the use of narcotic drugs. We are informed that the importation of narcotic drugs in Canada has increased since 1912, 35 per cent. for cocaine, and 600 per cent. for morphine. Meanwhile the federal health department will make recommendation that will reduce the opportunity for use of those drugs in an improper manner.

At one o'clock, standard time, October 26, all clocks of the C. P. R. will go back an hour. The fast time will go back simultaneously with the change in the United States.

Bad whiskey has figured prominently the past week in which a terrible toll of deaths and serious injuries have followed in the wake of automobile drivers, who went out joy-riding while under the influence of liquor. The Nanton incident, as well as that which occurred in Calgary on Sunday of last week, is traceable to nothing but whiskey.

It would appear that the Germans have learned little in connection with the late war, for we read last week that they attacked the city of Riga which was defended by the Letts with poison gas. It is a devilish way to conduct warfare and only goes to show that the German is still a barbarian and must be handled with force.

Congratulations to Mr. John W. Lucas of the Cayley district, who brought distinction into Alberta generally and the Cayley district in particular, by winning many prizes for grains shown at the International Soil Products Exhibition held recently in the States, and which was open to the world. When grain grown in Southern Alberta, under such adverse conditions as prevailed this year, can capture first place, what may we expect when weather conditions are favorable?

Why is it that some parents do not exercise parental control over their children? Some there are who give more careful attention to the protection and care of their stock of cows and horses than they do of their children. They owe more than that to those who will control the future destinies of the Dominion.

owing to the citizens of the country. If our War Loan securities were held abroad, the interest would be a severe drain on the country. That is the economic reason for popular Government Loans.

"Danger Go Slow"

GERMANY AFTER LUDENDORFF

Germany, in an attempt to right herself in the eyes of the world, is going to bring to trial and punish her old leaders, who were in any way responsible for the late war. Evidently she has tackled a job for Gen. Ludendorff is reported to have refused to appear before the parliamentary commission investigating the German leaders responsibility, which will begin sessions early this week. The commission will hear the report of investigations of pre-war diplomatic documents and will issue subpoenas demanding the appearance of all individuals whom the report indicates had any connection with responsibility. The Vorwaerts, discussing the coming trial, says:

"Those guilty for the war made history without pity for the millions. Now history will pass sentence without pity for individuals."

Which is all very nice of Germany, but, she need not think she can circumvent the sure and just punishment in store for her old leaders at the future Allied tribunal by a sham trial and conviction that would eventually give those leaders their freedom. Those men are going to pay and pay dear for the part they played. If Germany knows what is good for her and wishes to lay a foundation for the world to place faith in her change of heart, let her pre-emptorily punish her murderers as any murderer is punished. Otherwise all her pretences of reform will go for naught, she will be forever under the stigma of contempt that now surrounds her, and the Allies will see to it that Nemesis reaches the door of her slaughterers anyhow.

The food cost in 59 cities of the United States for families whose incomes aggregated from \$1200.00 to \$1500.00 shows an average of \$511.00 per year.

PLAN COMPLETE BOYCOTT OF BOLSHEVIKI

The text of the note of the supreme council inviting Germany to participate in the blockade of Russia as published by the Berlin Tageblatt and reprinted by the Daily Herald, shows that Sweden, Norway, Denmark, Finland, Spain, Switzerland, Mexico, Chile, Argentina, Colombia and Venezuela have been invited to "initiate measures to prevent their nationals from engaging in any trade whatever with Bolshevik Russia. The measures are thus enumerated:

- 1.—Refusal of permission to sail to every ship bound for a Russian Bolshevik port and the closing of all ports to ships from Bolshevik ports.
- 2.—Similar regulations to be adopted with regard to all goods destined for Russian ports by another route.
- 3.—Passports will be refused to all persons, to or from, Bolshevik Russia. Isolated exceptions may be made by the Allied powers.
- 4.—Measures to be taken to hinder bankers from granting credit to commercial undertaking in Bolshevik Russia.
- 5.—Every government will refuse its nationals any facilities of intercourse with Bolshevik Russia, whether by post or wireless telegraph.

Marshall Foch added the following: Inform the German government that British and French men-of-war in the Gulf of Finland will continue to blockade Bolshevik ports, and detain from the moment they come in sight, any supplies bound for such ports.

The preamble to the note declares that the open enmity of the Bolsheviks is directed against all governments and that programs of international revolution circulated by them constitute a grave danger to the national security of all the powers.

McWILLIAMS—ANDERSON

A marriage of interest took place Wednesday last in Dinton, at the home of Mr. and Mrs. Robert Anderson, when their daughter Hildred became the bride of Oswald McWilliams of Dinton. The ceremony was performed by the Rev. G. W. Kerby, D. D., of Mount Royal College.

The bride and groom are both very well known in the community and have taken a leading part in young people's activities. Mr. McWilliams is a gold medalist of the commercial department of Mount Royal College, and has served overseas.

The bride wore a gown of white crepe de chine and pearls, and carried white roses. She was attended by her sister, Miss Cora Anderson, who wore messaline silk and carried pink carnations. The groom was supported by Mr. Herbert McWilliams. The groom's gift to the bride was a pearl pendant, and to the bridesmaid a coral necklace. After the ceremony a wedding dinner was served, and a toast to the bride was proposed by Dr. Kerby.

The ceremony took place under an arch of evergreens and fall foliage, and the "Wedding March" was played by Mr. John Kidoo.

Among those present were Mr. and Mrs. Robert Anderson, Mr. and Mrs. J. M. McWilliams, Mr. and Mrs. D. Anderson, Calgary; Mr. and Mrs. Jas. Anderson, Langdon; Mr. and Mrs. Ray Davis, Mr. and Mrs. S. Sutor, Mr. and Mrs. Kennedy, Mr. and Mrs. Rayeroff, Mr. and Mrs. Neil Clarke, Mr. and Mrs. J. Rhodes, Mr. and Mrs. Voice, Champion; Mr. A. Gallanders, Gladys; Miss McEwen, Calgary; Miss Orr, Mr. Wright, Airdrie; Mr. A. Thompson, Mr. W. Thompson, and others.

Mr. and Mrs. McWilliams left to spend their honeymoon in Winnipeg and other eastern points. The bride wore a traveling suit of navy blue and a picture hat. On their return they will reside in Dinton.

ELECTION EXPENSES

The Grain Growers of Assiniboia are to be sincerely commended on the adoption of a political innovation, namely the paying to their candidate a salary for the period of the election campaign. In this case a campaign fund was opened when it was decided to contest the constituency, and subscriptions poured in rapidly from the first. Personally, we think it would serve the public better if the candidate gave his time and have the party bear the cost of the effort to elect him. However, it is a good thing and we wish it success. After all, why should not the men and women interested in political principles be willing to subscribe the money which is necessary to secure the victory of these at the polls. The old system of getting the money from the central party organization, from those who are looking for favors during the party term of office, is bad and leads generally to graft.

GIRL FEARED BY WORKERS PROVES THEIR LIBERATOR

Mae Marsh Attacked by Suspicious Mob of Strikers in "Glorious Adventure"

The harm engendered by even the slightest suspicion is vividly illustrated in a thrilling scene of Mae Marsh's latest Goldwyn production, "The Glorious Adventure," from the story by Edith Barnard Delano, which comes to the Community Theatre Saturday, Oct. 25th. It depicts an enraged mob of striking mill workers endeavoring to lay hands on a slip of a girl, who is there to help them and not to spy on them, as they think.

ANOTHER USE FOR OATMEAL

The other day while motoring home with a slightly damaged radiator, and which caused the water to boil to a high temperature, Mr. Alfred Crow came to our rescue with a suggestion that oatmeal poured into the radiator would stop the leak. With true Western hospitality he secured the oatmeal and dropped several handfuls into the boiling radiator, and the return trip was made without an effort. Upon our arrival home, we investigated and found a fine mess of lovely looking porridge in the radiator all ready for breakfast.

TO BE DEPLORED

Sir H. Rider Haggard gave evidence recently in London before the National Birth-rate Commission, and dwelt upon the dangers of artificially keeping down the births, which is now a widespread vice in every western nation, except perhaps Russia and Germany. He was of the opinion that unless a startling change occurred, the western races within the next two centuries would be submerged beneath a new influx from the teeming myriads of the east. As a last desperate resort the state, he urged, could directly or indirectly bring up all children, even holding out a kind hand to those not born in wedlock.

Overcoat or Doctor

If you think you can get along without any overcoat through the next cold snap you may be making a mistake. A man's constitution isn't intended to be tried out to see how much it will endure without giving up. Don't see how far you can go and not catch cold. Keep warm and save doctors' bills. We can fit you with an overcoat that will keep you warm. A. G. Spooner.

ROUMANIANS LEAVING CANADA AND THE UNITED STATES

There are about 100,000 Roumanians in Canada and about 300,000 in the United States and at present one half of these are preparing to leave these countries and return to their native land. The possibilities regarding the new land legislation in Roumania, following the acquisition by that government of the great fertile landed estates, which are to be parceled out to the people under inviting and fair terms, together with the reasons that nearly all of them have been cut off from their families, relations and friends for the past five years, is the excuse for their leaving. The average individual will take with him about \$2,000 of money saved and are leaving to remain away permanently. Most of them in the country have been employed as unskilled workmen. As in the case of some other Europeans, the Roumanians ventured to these shores as the result of two impelling causes: First—To escape racial and religious persecution; second, to take advantage of the rich fields of opportunity in the New World, especially for labor. They will be missed in the field.

SPREAD OF RACE SUICIDE

Recently we had an interesting discussion with a prominent farmer on the question of race suicide, when he with emphasis said that the Government should adopt a mothers' pension throughout the country. For every child born there should be a pension given the mother of from \$500 to \$1,000, so that the child could be maintained bodily and mentally, in a way best suited for the bringing up of that child. Personally we think such legislation would result in great good to the community, the country and the Empire. We do not know the exact money value of a boy or girl to the state but in the course of 50 years it will mean a great deal. Some place the value of a healthy person at about \$10,000, while the unhealthy person is not an asset, but a liability, which being the case, it is not good business for the Nation to neglect its very best asset—the citizenship of the nation. We have been woefully lacking in this respect and we are glad to see the matter is being considered by some of the statesmen of Europe and Canada.

Business in Alberta is picking up as evidenced by the larger edition of the "Okotoks Review" lately issued. "Sam" always was progressive, and only needs half a chance to show his appreciation of renewed activity.

"I Hope Every City and District Will Win My Flag"

When Edward, Prince of Wales—eager, bright-eyed, smiling and sincere—arrived in Canada in August, and when he voiced his great admiration of the wonderful achievements of Canadians, on the fields of battle and at home, once again we were thrilled with joyous pride.

He asked concerning Canada's reconstruction programme, and when he was told of the Victory Loan 1919, he graciously consented to the use of his Coat of Arms on a flag, which is to be the prize of honour for districts achieving their quota in the loan.

In dedicating "The Prince's Flag" at Ottawa on Labor Day, His Royal Highness said in part:—

"It is a great joy to me to be associated with the loan, which is the bridge between war and peace, and which is finishing off the job."

"I hope every city and district will win my flag."

Striking, and beautiful in design, this flag will form not only a unique memento of Victory Year, but a lasting and outstanding souvenir of the visit of His Royal Highness—a visit which will remain as one of the most memorable events in Canada's history.

The reproduction above shows the design of the flag. The body is white, the edge red; in the upper left hand corner is the Union Jack, and in the lower right hand corner the Prince of Wales' Coat of Arms.

The flag is made in two sizes, 4 feet 6 inches by 9 feet for small cities, towns and villages, and 7 feet by 13 feet 6 inches for cities of over 10,000 population.

Canada has been divided into canvassing districts by the Victory Loan Organization. Each city forms one district. Other districts have been determined according to population.

Each of these canvassing districts has been allotted a certain amount in Victory Bonds to sell. To win the Prince's Flag, therefore, a district has to sell its allotment. That is the one and simple condition.

Anticipating that many districts will buy far beyond their allotment, the organization decided that for each twenty-five per cent. excess of the quota one Prince of Wales' Crest be awarded. Thus the workers in a district doubling its quota will be the proud winners of four small crests for their Honour Flag. These crests will be sewn to the flag. The Prince's Crest—

the three ostrich plumes—is shown at the top of the coat of arms.

To every organization with fifty or more employees, where seventy-five per cent. of the enrollment invests a total of ten per cent. of the annual payroll in Victory Bonds, a supplementary Prince of Wales Flag in smaller form—48 inches by 34 inches—will be awarded.

The allotment for each district has been carefully considered, and is based on a conservative estimate of the purchasing power of the district.

Your district can sell its allotment and thus win the Prince's Flag, provided each person does his or her share.

You will gladly do your part and encourage your neighbour to do his.

Remember YOUR purchase may be the one that decides whether or not your district is to be the proud possessor of the Prince's Flag.

The Prince's Motto is "I Serve"
Will You also Serve?

Victory Loan 1919

Issued by Canada's Victory Loan Committee

"SHE withstood everything in the field and above all was, and still is, the last and only car to survive until the cessation of hostilities."—Extract from letter received by Ford Motor Company from a British Soldier, in Africa.

Over shell-torn roads, through water soaked fields, second only to the tanks in its power to climb debris and crater holes, the Ford car made a world famous record in the fighting area of the great war. In press despatches, in field reports, in letters, in rhyme and song the praises of the Ford were sounded.

In France - 700 cars out of 1,000 were Fords
In Italy - 850 cars out of 1,000 were Fords
In Egypt - 996 cars out of 1,000 were Fords
In Mesopotamia 999 cars out of 1,000 were Fords

The Ford power plant that established this world-wide record in every theatre of the war remains the same. It will be in the Ford you buy.

Ford Runabout \$600. Touring \$600. On Open models the Electric Starting and Lighting Equipment is \$100 extra.
Coupe \$775. Sedan \$1,175 (closed model) prices include Electric Starting and Lighting Equipment. Dismountable rims, tire carrier, and non-skid tires on rear as optional equipment on closed cars only at \$50 extra. These prices are for C. & S. Ford, Ltd., and do not include War Tax.

Buy only Genuine Ford Parts. 700 Canadian Dealers and over 2,000 Service Garages supply them.

BUFFALO HILL HINTS

The weather has been clear and frosty, allowing harvesting and the threshing to continue.

Mr. and Mrs. Oleson have returned from New York and are now residing at Kirkcaldy.

Mrs. N. Speer who has been away on a trip to Saskatchewan with Mr. and Mrs. N. Esler, has returned to this district.

Mr. Oscar Long spent a few days in the district on business.

Quite a number from the vicinity attended the chicken supper, concert and dance at Berrywater on Thanksgiving. They seem quite overjoyed with the pleasant time they had there.

We are wondering why the results of the Marquis Municipal School Fair have not yet been announced.

Miss C. McFarland has returned to University in Edmonton.

Miss M. Bell who spent Thanksgiving with her parents has returned to school in Calgary.

SUNDAY EVENING CONCERT

On Sunday evening, Oct. 25th at the Community Theatre, 8:30 P. M., the Harmony Five Orchestra will render the following program:

Opening March—"Blaze of Glory" Orchestra

Selection....."Mutt and Jeff" Orchestra

Saxophone Solo.....Selected Mr. F. L. Simington

Novellette....."Frisco's Kitchen Stove Rag"—Orchestra

Song.....Selected Mr. H. Dorch

Selection....."King Do-Do" Orchestra

Cornet Solo.....Selected By "Dooley"

March....."Wake Up America" Collection

"God Save the King" Collection

NEW OIL WELL

The Illinois-Alberta Oil Company has struck oil in their Turner Valley field location, of good volume, increasing rapidly, and at the present time producing from 25 to 50 barrels per day. The flow was struck at a depth of 2,250 feet. The well is located a mile northwest of the Dingman No. 1 well and a half mile west of the Southern Alberta No. 1 well on Section 12, Township 20, in what is known as the Turner Valley field. The flow is reported to be very encouraging and giving increasing indications of greater yield.

The Illinois-Alberta property is part of the original Northwest Pacific holdings, and the company was promoted and is being managed by Owen Jennings of this city who is in charge of operations in the field. Practically all of the stock of the company is in the hands of the holders in the United States, and very little is held locally.

Jim Hoggie had a narrow escape of being killed a week from last Saturday. His automobile ran over the bank at the hill on the Macleod Trail and turned completely over. Luckily, Jim escaped with a severe shaking up and a badly cut face. He was able to drive the car home that afternoon.

—Okotoks Review.

THE SPICE OF LIFE

A farmer was anxious that his son should become a minister, and for this laudable end sent him to college for four years, but to his great disappointment the youth balked at the ministry and set himself up as a horse dealer. The old farmer told his grief to a neighbor, who, however, took a more optimistic view of the matter. "Oh, I wouldn't feel so badly about that," he said. "As a horse dealer Bill will probably lead more men to repentance than he ever would have done as a preacher."

Two sailors, an Irishman and a Scotchman, could never agree, and the rest of the crew had become adepts in starting them on an argument. One day "patron saints" was the subject of which the Scotchman knew nothing and the Irishman just a little. "Who was the patron saint of Ireland?" said Jock. "Do you mean to say you don't know?" said Pat. "Why, the holy St. Patrick." "Well," said Jock in deliberate tones, "hang your St. Patrick." In a towering rage the Irishman hesitated a second while he thought of something equally offensive, and then burst out with, "And hang your Harry Lauder."

THRILLS OF CIRCUS BROUGHT TO SCREEN

"The Lure Of The Circus" with Eddie Polo and Eileen Sedgewick has PUNCHES GALORE

Do you remember the indescribable tang of the sawdust ring?

Can you recall the "ice col" red lemo" of the white-coated attendant or the raucous call of the peanut vendor; the roar of the lions mingling with the multitudinous shouts of the spectators and performers, and the grand finale of the three-ring performance when the chariots dash madly around the outer circle, the foam flecked horses urged to their utmost endeavors by the cries of the multitude?

All this and more can again be enjoyed by attending the Community Theatre where "The Lure of the Circus," a master Universal serial, featuring Eddie Polo, will be shown.

MASQUERADE BALL PRIZES

The following prizes for the forthcoming Masquerade Ball to be given by the Vulcan Band boys at the I.O. O.F. Hall on Friday night, the 31st inst., Hallow'een, are announced, and are on display in the show window of the D. C. Jones Drug Store:

Best Dressed Lady—

1st prize.—A Silver Cake Dish, donated by Mr. E. King.

2nd prize.—A Silver Bread Tray, donated by Mr. J. Wolfe.

Best Dressed Gentleman—

1st prize.—One pair of Kid Gloves, donated by Buck & Howson.

2nd prize.—Complete Shaving Kit, donated by H. Jacques.

Best Ladies' Comic Costume—

1st prize.—A Silver Casserole, donated by McPherson Bros.

2nd prize.—Ladies' Fountain Pen, donated by D. C. Jones.

Best Gentleman's Comic Costume—

1st prize.—50 Bull Dog Cigars, donated by Harry Noel.

2nd prize.—Pearl Handled Pocket Knife, donated by the Vulcan Supply.

Best Ladies' Original Costume—

1st prize.—One Pair of Kid Shoes, any size, donated by Naimsmith & Co.

2nd prize.—Pyrex Pie Dish, donated by the Lindsay Hardware.

Best Gent's Original Costume—

1st prize.—Selected, by Mr. Reeves.

2nd prize.—One Pair Jaeger House Slippers, donated by Mr. A. Spooner.

Special prize for the best dressed couple. For the lady, piece of China; for the gentleman, a pair of gloves, donated by Mr. E. E. McIntosh.

A 49 lb. sack of flour to the best dressed married couple, donated by the Vulcan Wholesale Grocery.

THE PRICE OF FOLLY

By one of those unfortunate but infrequent (?) mistakes which occasionally are made, even in the columns of the Review, the birth of a daughter to Joe Price was credited last week to Andy. With that laudable desire to avoid trouble for which the editor is noted, we carefully kept out of both parties' way and carefully inspected every visitor through a peephole while the devil interviewed them. Unfortunately, we were on the street one day and Andy saw us first. When he got through, he comforted us with the information that what he had given us, we would get from Joe when he saw us. (Joe won't see us if we can help it). Andy says we did it "puppets." He requests us to look back over our file for the last few months and indignantly asks if we think he is trying to establish a world's record. He also says that he objects to having to stay out of town for two or three weeks until the matter blows over and to locking his doors against his friends and neighbors who come over to inquire after the baby and when they can't get in make their queries through the window.

—Okotoks Review.

"TOO POOR TO STEER"

The story is printed in a Canadian farm paper of an old settler who was sizing up the possibilities of the year's calf crop. One of the calves was a mean, scrawny, ill-developed male which should have been knocked in the head before it had time to consume any valuable feed. This was the conclusion that farmer reached as he looked that calf over: "He isn't good enough to steer; I'll keep him for a bull."

And that was just what he did. An animal that he considered too poor to make good beef was kept for breeding purposes. That farmer was going to try to raise animals for market from a bull that was too scrubby to sell for anything but a hatrack. Often, it seems, when one sees the scrub bulls in some parts of this country, that some such principle as that which influenced that Canadian farmer must be back of the men who consent to keep and breed such animals.

Breeding good stock has lost much of the haphazard element it once had. We have certain recognized breeds which we know are capable of production along certain desired lines. By the use of sires of these breeds on grade herds increased production along these lines can be had with a considerable degree of certainty. Grading up a herd, either for milk or for beef production, is now a recognized and widely practiced method of increasing the efficiency of the herd and of securing greater profits for the breeder and feeder.

Good sires of any of the breeds take away much of the guesswork. It is no longer necessary for a breeder to experiment for greater production, except at the very top; for the average man improvement is best obtained by following the well-beaten path made by those who have gone ahead, doing the experimental work, and fixing in the breed the desirable qualities for which each is noted. No man who is desirous of improving his herd can afford to use scrub or cross-bred sires. Any extra expense incurred through using a pure-bred will be more than justified by the certainty of the results.

She was a young widow who had just re-married, and hubby number two was causing her much anxiety. "I cannot understand why my husband is so fastidious," she complained to a friend. "Now, my first husband who died used to eat everything that I cooked for him." "Did you tell your present husband that?" queried the friend. "Oh, yes, of course. Why?" "Well, perhaps that's the reason."

A FEW SMILES

One Consolation.—Youths sowing their wild oats nowadays can't mix in so much rye.—*Boston Transcript.*

Monkey-Talk.—Professor Garner reports that the female ape says "Moo-hoo," and the male ape replies "Wahoo." Evolution doesn't appear to have carried us very far. A chap on a moonlit beach last night said, "Who is oo?" and the girl replied, "It's oo's."—*San Francisco Chronicle.*

Happy Occasion.—Mother—"What's the matter, darling?"
Child—"P-p-pa hit his finger with the hammer."
Mother—"Don't cry about that; you should laugh."
Child—"I-I d-d-did."—*London Bligh.*

Worse.—Lady—"Here my poor fellow is a quarter for you. It must be dreadful to be lame, but I think it would be a lot worse to be blind."

Tramp—"It is, mum. When I was blind they was always handing me counterfeit quarters."—*The American Legion Weekly.*

Here and There.—"In some parts of Africa a man doesn't know his wife until after he has married her," said Mrs. Gabb, as she looked up from the newspaper she was reading.
"Huh!" replied Mr. Gabb. "Why mention Africa especially?"—*Cincinnati Enquirer.*

The Music That Has Charms.—He—"Most girls, I have found, don't appreciate real music."
Second He—"Why do you say that?"

He—"Well, you may pick beautiful strains on a mandolin for an hour, and she won't even look out of the window, but just one honk of a horn and—out she comes!"—*London Bligh.*

Hand-Stirrups.—"See any fancy ridin' while you was east?" asked Three-Finger Sam.

"I sure did," answered Cactus Joe. "But everything's topsy-turvy. People in the cars have to hang on with their wrists in straps."

"Jes' think of that. Usin' the stirrups for their hands instead of their feet!"—*Washington Star.*

Wife Won.—The race for the last word was getting hot. Hubby and wife were running neck and neck.

"You did!"

"I didn't!"

"You did!"

"I did not!"

The pace was slowing.

"Well," flashed hubby, "one of us two is a very capable liar. But there is one thing which prevents me saying which one."

"Modesty, I presume," retorted wife.—*Pittsburg Sun.*

She Guessed.—"Robson, do you know why you are like a donkey?" the jester queried.

"Like a donkey?" echoed Robson, opening his eyes wide. "I don't."

"Because your better half is stubbornness itself."

The jester pleased Robson immensely, for he at once saw an opportunity for a glorious dig at his wife. So when he got home he said:

"Dear, do you know why I am like a donkey?"

He waited a moment, expecting his wife to give it up. But she didn't. She looked at him somewhat pityingly as she answered:

"I suppose it's because you were born so."—*London Tit-Bits.*

GENERAL NEWS

Strike and the world strikes with you—work and you work alone.

The longer it takes the world to settle down, the longer it will take for it to settle up.

God made the world in seven days but he didn't have a Parliament to deal with.

Coal profits are now under scrutiny of the Board of Commerce Commission at Calgary.

Mrs. Evelyn K. Albright, a soldier's widow, was admitted to the bar in Calgary, being the second woman law practitioner in Alberta.

Some of the beautiful soft drinks now current show that the dye industry must have departed from Germany for good.

The British and French governments have begun negotiations for flotations of loans in the United States aggregating \$250,000,000.

The U. S. navy department offers \$10,000,000 worth of the finest grades of tinned meats, fruits and vegetables to the public at cost.

A Boston paper says tests show a cow will yield 10 to 12 percent more milk when milked to the accompaniment of music. This is an idea for our local milkmen.

A Macleod man was sentenced to five years in the pen for breaking in to a home in Macleod and attempting to rape the woman of the house. The punishment is not severe enough. Such men should be shot.

October, so far, has been an unusually cold month, one of the coldest Octobers for many years, and old timers predict that the cold weather is here to stay and that a severe winter is coming, which will be followed with an early spring. What do you know about it?

Our old friend, Dr. Cook, the Arctic explorer, is in the limelight again. This time he has been exploring in the oil fields and has opened a Texas gusher, producing 5,000 barrels of oil a day. The yearly income from the well now running is given as \$4,000,000.

The "Flying Parson," Lieut. Maynard has won the "Air Race" across the continent and return, and averaged nearly two miles per minute during the whole trip. Ten aviators were killed during the trip and many others were injured. It's hard to beat a parson when travelling heavenward.

Cable advices say that Admiral Lord Jellicoe will arrive at Esquimaux aboard the battle cruiser New Zealand, on Saturday, Nov. 8. He will spend some days in Victoria and has accepted an invitation to attend a ball to be given in his honor by the Navy League on Monday, Nov. 10.

There is no use for further worry over getting old. A Paris physician by name of Dr. Serge Vernoff has discovered that old age can be indefinitely postponed by the grafting of certain glands of the young who have been accidentally killed and who were in good health at the time. These glands in such retain their life-giving properties for at least three hours after the death of the patient and may be removed and grafted in the bodies of deserving and ambitious old men with the result that they become young and active again and fitted to continue their career in life. So what's the use of worrying, etc., etc.

GRAND TRUNK RAILWAY

The interesting fact was brought out in debate at Ottawa that the Grand Trunk Railway Co. has a mileage in the United States and Canada of 8,138. Total securities with the public amount to \$707,929,817. The surplus available in 1918, according to statement shows the Grand Trunk Ry. had a surplus available that year for dividends of \$8,760; the G. T. Pacific had a deficit of \$873,640, or with fixed charges and loss on branches \$9,442,739, a gross deficit of \$10,316,379. This is the railway that the Government has taken over at a price to be settled by arbitration.

IMMORTALITY

And now that the war is over we hear a great deal of discussion about the greatest feat performed by the British during those terrible four years. There are so many noble deeds to consider, so many well-won triumphs to remember that it is very difficult to decide just which great act performed by the British deserves the stamp of immortality.

But to all people who enjoy the privileges attendant upon the doctrine of Democracy the greatest triumph of the British people was this: That in the land filled with lords, dukes, aristocrats,—it has come about within three or four short years that David Lloyd George, a son of the common people if there ever was one, an humble lawyer fighting the battles of the laboring classes, should become the tongue, the eye, the guiding hand, the throbbing heart, the masterful thinking brain of the entire British Empire!

This one immortal fact will stand out emblazoned on the pages of British history, a glowing hope, an unparalleled incentive to a democratic posterity, long after the names of our hard won battles in France and Flanders have been forgotten by our children's children.

AFTER CHILDLESS MEN

During the past two or three years we have heard parents with large families discuss the great problem of the high cost of bringing up children, and the general opinion was that it was impossible for a man on a salary to maintain a family respectably with the cost of clothing and living mounting to figures far beyond their income. Invariably the discussions would end in the suggestion that the man without children and the bachelor should be taxed. In this connection we observe that the leader of the Ontario Conservative party has announced that his party will introduce legislation to the effect that the man with children will be taxed less heavily in future than the man without any children. He also announced that in the coming session, if returned, he would introduce legislation embodying mother's pensions. This law is one that should be adopted throughout the Dominion without delay. We pay huge sums of money for the propagation of pure bred cattle, horses and hogs, but the human element has been entirely ignored.

A COURAGEOUS JOURNAL

The Christian Guardian, edited for many years by the late Rev. Dr. E. H. Dewart, father of the present leader of the Ontario Liberal party, has taken a strong stand in support of Mr. Hearst, leader of the Conservative party and urges all temperance men to support him. The Liberal chief-tain declares that he doesn't allow the Methodist Church, to which he belongs, to "become the donkey-engine of the Hearst government." The Statesman, Dewart's chief supporter, goes so far as to say that "the Methodist Church, by a chain of fortuitous circumstances, has come to be identified in the public mind with the last resort of hypocrites and profiteers." The Guardian considers the prohibition question important to the welfare of the Nation and has not weakened in the least and its cause is regarded by reasonable people as consistent and mighty courageous.

CONSIDER OTHER FELLOW

Since the opening of prairie chicken and partridge season we have heard many complaints from farmers and stockmen about the thoughtlessness of some of our people who go out to the country for game. Some there are who will resist the temptation to shoot in close proximity to stock grazing in the fields, but others, more selfishly inclined, will let bang among the cattle, with the result that they will stampede and rush madly here and there and for a week will not settle down quietly to their feed. In a large bunch of beef cattle being prepared for market the loss in weight is almost inestimable and causes a very heavy financial loss to the owner in question. The true sportsman will on all occasions respect the wishes of the stockmen of our country and will not do anything to disturb valuable stock grazing contentedly on the ranges and we hope that from now on there will be no occasion for further complaints in this direction. Bird dogs should never be allowed to disturb the cattle and we would caution sportsmen to avoid fields where stock are confined, otherwise they may be restrained from shooting on private premises.

AN INCREASE IN STILLS

In a report given by the Senate at Ottawa the fact is gleaned that illicit stills are very numerous in Canada. There being 424 in operation since April, 1919. In this connection good old Ontario leads the provinces with 129 and Alberta comes second with 83. This refers to the number of stills discovered, and we know there are many more undiscovered stills in operation at the present hour.

The shooting season on Hungarian partridge closes on the 1st of November, and on prairie chicken, the 15th of November. Up to the present time of writing, we have not learned of any wonderful bags in either of these game birds and are wondering if our numerous "nimrods" have altogether lost their cunning, or has the dry spell affected their thirst for the shooting. It's not too late yet to hear a few good stories along these lines. Bring them in.

W. L. Bucher

A general coal strike of the bituminous workers in the United States to the number of one half million men is called for November the 1st, and at the present writing, no definite steps have been made to avert the same, which promises to go into effect. The strikers are demanding a fulfillment of all grievances with a five-day work week. Next.

Major Basil Roughton, of Calgary, was instantly killed by the accidental explosion of his gun while endeavoring to finish a wounded prairie chicken with the butt end of his gun. It seems that some people will never learn the dangerous end of a gun, and it was ill-becoming a man with the prefix of Major to handle a gun like an axe. The story is sad, but true.

U. G. G. ANNUAL MEETING

The annual meeting of the stockholders of the U. G. G. will be held at the I. O. O. F. Hall on Saturday afternoon, Oct. 25th, for the election of a delegate to the annual stockholders' meeting to be held in Winnipeg in the near future and for the transaction of such other business as may properly come before the meeting. Upon the conclusion of the business meeting the U. F. A. will hold a meeting at which plans will be discussed for the furtherance of their political actions. All members and stockholders are requested to be present.

In Chicago

Dr. Knowles Wants The Vulcan Advocate

We are in receipt of a post card, unsigned but unmistakably from our friend Dr. Knowles, who lately left Vulcan for Chicago, from which point the postal is sent. He wants us to send him the Vulcan Advocate and gives us his Chicago address with the number three times mentioned thereon so that there will positively be no mistake as to the place. He also states that there are at least three newspapers printed in that town but that "not one of them have as yet mentioned our coming." Poor "Doc," We can imagine his predicament and see him strolling along State or Clark Street with an expectant smile on his face and staring at the multitude of unknown people hurrying past in a vain endeavor to get just one kindly acknowledgement of his existence from some one whom he might know, but without avail. We have been there ourself Doctor and know how small and seemingly unimportant one lone individual is in a town like Chicago or New York places where nobody cares particularly about you and where one's individuality is swallowed up in the multitude of human beings hustling for the almighty dollar, and possessing least of all the feeling of fellowship and kindly interest which is noted in the smaller towns of the west. The Doctor will get the Advocate and its "dollars to doughnuts" that he reads it from top to bottom and all, at least for a few months by which time we trust that he will have made some real friends, who will partly remind him of those whom he left in Vulcan, and who will be able to fill in some degree the position of those left here.

KILLED IN AUTO ACCIDENT

James De Carlo, of Calgary, formerly of the Globe Cafe, was instantly killed when the Chalmers automobile in which he was riding went over a culvert and turned turtle at a point four and one half miles north of Nanton, on Mosquito Creek, at 2 o'clock Friday morning last. Roy Volpe, of Lethbridge, the driver of the car, and Fred Cicconi, of Calgary, who was also riding in the car, escaped with nothing worse than shock and bad bruises. Following police investigation Cicconi and Volpe were taken into custody by the Provincial Police at Nanton on a charge of an infraction of the Liquor Act, and they were also summoned as witnesses to the Coroner's inquest, when Dr. Buswell, the Coroner, made his examination. Near the point of the accident, the police discovered a liquor cache which contained a large amount of whiskey which it is presumed was cached after the accident. A large sum of money was found on Volpe and smaller sum on Cicconi and the dead man. The latter was well known to the police of Calgary and Edmonton.

VICTORY LOAN DRIVE

Mr. R. A. Darker, district chairman of the Victory Loan of 1919, was in Vulcan last week looking over conditions here and preparing plans for the forthcoming "drive" which opens in the country on next Monday, the 27th inst. Notwithstanding the depressed conditions surrounding this district he is confident that the amount allotted to this district will be readily taken up and oversubscribed. There may not be so many investments of the larger denominations as was previously subscribed for, but what is lost in this respect will be more than made up in the increased number of smaller subscriptions, which are just as acceptable and will display the patriotism of the people as the loan is intended as a popular one and is expected to be subscribed to by the masses. The Committee in charge of the loan this year is composed of the same men as before and are as follows: F. A. Elves, Capt. C. E. Colwell, Sec'y., G. N. Whicher, A. J. Flood, G. W. Buck, W. E. Butchart, A. G. Dickenson, J. Naismith, R. E. House, E. M. Clark and R. L. Elves.

The Champion Committee is also composed of the men who served before and is as follows: George Marks, Capt. Percy Watson, Sec'y., F. Cooper, William Fry, E. L. Crawford, Frank Smith, F. L. Cook and Milt Moffat. The amount allotted and expected to be awarded between Vulcan and Champion is \$85,000.00, which is not too much to be allotted in the territory covered, even in times like these, as the investment is a grand one and the security certain. We trust to see considerable activity manifested on the part of each and every person who is at all able to invest, and hope to learn at the end of the drive that Vulcan has oversubscribed herself and added one more credit to her already long honor roll of patriotism.

WAS IT YOU?

A certain railway company received a complaint from a farmer, as follows:

Dear Sirs,
My razor-back strolled down your track a week ago today.
Your 49 came down the line and snuffed his life away.

No fault of mine, you see the swine slipped through a cattle gate.
So kindly send a cheque for "Ten" this debt to liberate.

The railroad company made answer as follows:

Dear Sir,
Our 49 came down the line and killed your hog we know,
But razor-backs on railroad tracks quite often meet with woe,
And so you see, we cannot send the cheque for which you pine,
So plant this epitaph o'er his grave,
"Here lies a foolish swine."

The young man called on his best girl, who from the upper landing, informed him that she could not come down as she was not dressed. "Oh, slip on anything and come down, dear," he said, so she slipped on the stairs and landed in his arms. Curtain.

Your bill heads, letter heads and statements at the Advocate. Let us make them up for you.

SALT DEPOSITS IN ALBERTA
ARE NOW DISCOVERED

Province Established As One of the Richest Producing Areas in World. Brine from springs in eastern Alberta having the appearance of mud volcanoes, has been found to assay 98 1/2 per cent salt, establishing Alberta as one of the richest salt-producing areas in the world, according to W. O. Saunders, representing British capital interested in Canada's natural resources, who is en route to England to make his report. He will return to Canada in four months. In the same neighborhood conglomerate deposits were unearthed which contained fine specimens of garnet, agate and other rare mineral products, he declared.

In the eastern section of the province, near the border, Mr. Saunders stated, salt deposits, rising from numerous springs in a shallow lake, were found. These "mud volcanoes" are throwing up brine 98 1/2 per cent, of which is salt. The lake itself, into which these springs flow, contains 62 per cent, salt, as compared with 37 per cent in Salt Lake, Utah.

NOTICE

The Fire Commissioners of the Village of Vulcan have adopted the following suggestions, and request that all citizens read and follow the same as a necessary precaution against possible fires, at this particular time.

Things Not to Do

1. Don't put ashes in other than metal receptacles and don't dump them where they will come in possible contact with combustible material.
2. Don't permit oily rags to lie around.
3. Don't let the fact that you are insured make you careless.
4. Don't use an open light in the presence of inflammable liquids.
5. Don't throw away lighted cigars, cigarettes or matches.
6. Don't use kerosene, benzine or gasoline in lighting fires, or to quicken a slow fire—it may result in death.
7. Don't use gasoline or benzine to cleanse near any open flame, light or fire.
8. Don't make bonfires of rubbish where the wind can scatter it—burn it in a container.

The Things to Do

1. Keep waste paper, packing materials and rubbish cleaned up, remove from building at least daily.
2. Make frequent personal inspection from a fire standpoint.
3. Put up and enforce "No Smoking" signs in hazardous localities.
4. Have all smoke pipes and chimneys inspected and repaired by a competent person before starting fires for the winter.
5. Keep gasoline in safety cans and in a safe place.
6. Where convenient, keep a barrel of water and pails filled and extinguishers charged.
7. Feel your personal responsibility for possible loss of life and property by fire and act accordingly.
8. Pay attention to your stoves the last thing at night and make sure they are properly safe to leave.
9. Notify the authorities in case of dangerous exposures or proceedings. They also wish to advise that Fire Extinguishers are on hand at the fire house and can be purchased at the cost price of \$16.00.

ESTRAY

ESTRAY—\$10.00 Reward will be paid for the recovery of cattle branded **Q** on left ribs and horses branded **DH** on left thigh. Mrs. J. H. Chandler, Nanton, Alta.

Two Miles North of Vulcan

Organization for 1919 Victory
Loan Will Be Most Complete

The interest taken in the 1919 Victory Loan is growing daily. Businessmen throughout all Canada, and particularly in Southern Alberta are banding themselves together for the purpose of making Canada's last appeal to her people the most successful domestic loan which has ever been floated. The loan will be advertised in many attractive ways and the appeal to the patriotism of every true Canadian will be well responded to.

Canada is today in the position of a big business house reconstructing her affairs. She is making money but needs more capital to carry on. She is re-establishing her soldiers in a more complete way than probably any other country has ever attempted. It is due these men that they should receive every advantage to help themselves that Canada can give them.

All classes of Canadian people in all trades benefit directly by the distribution of money—the farmer, the artisan, the manufacturer, lun-

berman, miner, fisherman and merchant.

The working capital needed for this gigantic business can be obtained only by borrowing, and it is in every way desirable that the amount required should, if possible, be raised within Canada itself.

The war was not won with the signing of the armistice; it will not be won by the signing of the peace; it can only be won definitely and finally when every returned man is re-established, and when Canada stands pre-eminently among her neighbors.

Every returned soldier should be an enthusiastic booster for the 1919 Victory Loan. Don't demobilize your patriotism with your uniform. Your help is needed today as much as it was when you were in France. You went to France as, primarily, a good citizen of Canada. You are today asked to boost the Victory Loan as a good citizen of Canada.

The Victory Loan has no politics. It is a national enterprise to supply working capital so that Canada may carry on.
